

COSMO 20W 50W

APPLICATIONS

COSMO Flood lights can be used in gardens, courtyards, tennis courts and landscapes as well as for extra lighting in parking lots. It also serves to brighten pathways in parks or on campuses, or any location where having an LED outdoor light would be helpful, while avoiding the expense of running wires to the location.

DESCRIPTION

This versatile solar flood light has a separate solar panel to collect energy from the sun. The solar panel also contains a sensor which activates the light when it is sufficiently dark. This unit comes with a remote control so that you can select your desired mode, brightness and timer options. After a full charge, this solar light can be activated in increments of 10% brightness for a full 12 hours. If not fully charged, it has a built-in feature that adjusts to the maximum possible brightness for up to 12 hours. It can also be set on a timer mode for 3 hours, or 5 hours. There is also a Manual mode that allows the user to turn on the light and keep it on, for as long as desired. In this mode, the light will not turn off automatically during daylight hours and must be turned off manually.

ORDERING INFORMATION

SERIES	WATTAGE	COLOR TEMPERATURE	MOUNTING OPTIONS	FINISH
STL-SWL=COSMO	20=20W 50=50W	4=4,000K 5=5,000K	WM=WALL MOUNT	BK=BLACK

SPECIFICATION FEATURES

Generates More Solar Energy and Stores More Energy

- Adjusting the solar panel angle maximizes solar collection & allows snow to slide off.
- The solar flood light has a separate solar panel to collect energy from the sun.
- (IAP) Intelligent Adaptive Program Battery Control Technology that stays lit all night, even through cloudy or rainy days.

Multifunctional & Flexible

- The light can be used separately from the solar panel for both indoor and outdoor uses
- Use outdoor as a flag pole light, sign light, billboard light, or wall pack
- Use indoor as bus stop & shelter lighting

Longer Life

- 6 operating modes for indoor and outdoor use
- Remote control included with one-button mode settings
- LED Indicators show 3 levels power storage

Highly Versatile Design

- The easiest way to bring lighting to both indoor and outdoor applications

INSTALLATION

Package Contents

1. Lamp (with bracket)
2. Solar Panel
3. Bracket for Solar Panel
4. Remote Control
5. Expansion pillar-hinge (4pcs)
6. Small Gasket (4 pcs)
7. Screw PA4*25 (4 pcs)
8. Large Gasket (2 pcs)
9. Screw M5*16 (2 pcs)

1. Attach the bracket on the wall, then screw the solar panel onto the bracket.
2. Screw the bracket onto the fixture housing and mount it onto the wall.
3. Connect the light and solar panel cables.
